- Irrigation
- Aquaboom watering system (robot)
- Heating
- Ventilation
- Climate control
- Lighting
- Insects net
- Doors:
 - Single or double
 - Sliding or hinged
 - Frame for garage door

EXCLUSIVE: OVAL TUBE ARCHES

Our exclusive oval tube is not only stronger, it is also more durable. More resistant by design, the oval tube reduces the number of arches, uses less steel, and shortens installation time, saving you time, labor, and materials.

Result

A greenhouse that is profitable from day one and designed for the long term. Its superior materials and construction make it a lasting investment that retains its value over the long term.

* Single polyethylene is only available for the Ovaltech I (25' and 27') and Ovaltech III (30').
* The customer is responsible for purchasing the garage door.
